Declaration on destruction of confidential data
for scientific purposes

I, <u>(name and surname(s), position, institution),</u> as principal investigator, having had access to confidential data file(s) for the purpose of [name of research project],

HEREBY DECLARE:

That on dd/mm/20.... I received from the Statistical Institute of Catalonia (hereinafter Idescat) a file or files containing confidential data for scientific purposes, for which I previously signed a declaration of commitment for access to confidential data for scientific purposes on dd/mm/20....

That after using the confidential data provided by Idescat to carry out the aforementioned research, these data have been completely destroyed, in all their material mediums and including any partial or total copy, in accordance with point 9 of the previously signed declaration.

That if, as the research project's head researcher, I fail to comply with the obligations established in the previously signed declaration of commitment, I will be subject to the penalties the Law establishes in each case and that Idescat will have the right to demand such penalties, in accordance with the legally established procedures.

Barcelona, dd/mm/20...

Signatures of the principal investigator and of the head of the research centre of which he/she is a member

Information on data protection

Data controller: Statistical Institute of Catalonia
Purpose: Your data will be processed for the management derived from the processing of requests for statistical information for scientific purposes.
Rights of the data subject: You may access your data, request its rectification or erasure, and oppose or restrict its processing by sending your request to Idescat by email at adpd@idescat.cat or by post to Via Laietana 58, 08003, Barcelona, providing proof of your identity.
Additional information: Please refer to the data protection policy.

I declare that I have made the persons for whom I have provided data in this form aware of the data I have provided and of the information regarding data protection.
